1.Applicant's election without traverse of Group III, claims 26-29 in the reply filed on November 10, 2005 is acknowledged.

2.The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Iversen (see 12 and 13 in Figs. 1 and 2; col. 5, line 61 through col. 7, line 2).

The applied reference discloses the instant anisotropic scintillator for an imaging system wherein a laser is used to cut the instant first and second parallel planes (ie, screen 12) within a crystal/ceramic element (13), the laser cutting altering the optical property at the areas cut and the cut areas providing a pattern of individual cells which controls the spread of photons within the scintillator element.
